MATADOR NXB

Flat and satchel bag machine

The **MATADOR NXB** belongs to the series of **successful** flat and satchel bag making machines by GARANT.

Since 1998, the MATADOR series has been part of the GARANT flat and side gusset bag range. The MATADOR NXB was developed in 2011, features modern drive technology, the foundation for economic production.

With an output of up to 1,200 paper bags (2,400 on the TWIN) per minute, this machine is adapted to market requirements and is ideal for efficient and competitive bag production.

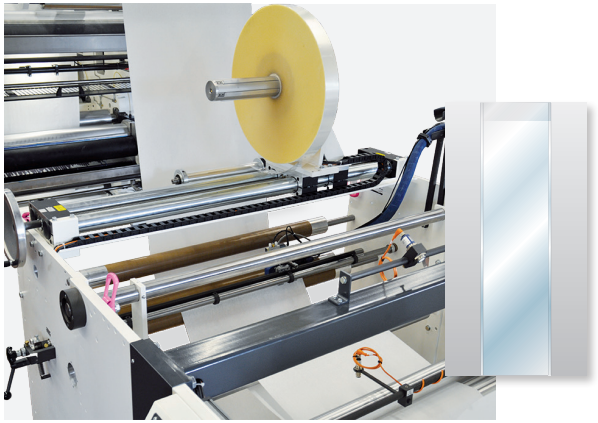

Today, the MATADOR NXB can be equipped with various additional devices and used both for the production of conventional flat and side gusset bags and for highly complex window or panoramic bags.
