

OPERATOR TRAINING FOR PAPER BAG MACHINES

Training for the professional operation of your paper bag machine

Why GARANT Operator Training?

With our operator training, your employees will be qualified by our experienced trainers for the professional operation of a GARANT machine.

During the training, participants will learn about the design, properties and safety features of the machine. They will also be introduced to the functions and technical procedures. Through practical exercises directly on the machine, the participants will learn how to prepare and start production efficiently.

In addition, the participants will be trained to recognize faults and troubleshoot them independently. Conducting preventive maintenance is also included in the operator training.

Training content

- ✓ Design and functionality of the machine and additional units
- ✓ Operation of the machine
- ✓ Learning about job management and applicability when changing jobs
- ✓ Identification and rectification of malfunctions
- ✓ Preventive maintenance routines of the machine

GARANT TRAINING

In our trainings, you will receive practical training based on a fixed learning concept and with clearly defined learning goals. Through the extensive specialist knowledge and the many years of practical experience of our skilled trainers, you will receive professional product and application knowledge in our trainings.
