

# PRODUCTION SUPPORT FOR PAPER BAG MACHINES

Professional support for the daily production with your paper bag machine

## Why GARANT Production Support?

With our production support you will receive professional assistance while producing, directly in your company. Your employees will be guided and supported by an experienced trainer throughout the entire production process. You will learn how to take advantage of the machine's potential, as well as how to increase productivity and product quality in the long term.

Through critical observation and competent advice, we will optimize your production processes together and provide you with practical proven advice. We dive deeper into the manufacturing processes in order to achieve the best possible product results.

Additionally, your employees will be specifically trained to recognise malfunctions during the production process at an early stage to troubleshoot them independently.

## Training content

- ✓ Identification of optimisation potentials for an increased production performance
- ✓ Joint quality check and product adaptation during production
- ✓ Concrete measures to improve your production line
- ✓ Optimisation of the production environment and material procurement
- ✓ Training in identifying and troubleshooting malfunctions and preventive maintenance routines

## GARANT TRAINING

In our trainings, you will receive practical training based on a fixed learning concept and with clearly defined learning goals. Through the extensive specialist knowledge and the many years of practical experience of our specialist trainers, you will receive professional product and application knowledge in our trainings.
